

"Having Fun with Amateur Radio"

7-14-2018

REGULAR BUSINESS:

Meeting opened at 1310 hrs by Vice President Joe Cobos

Attendance sign-up sheet was passed around

Minutes from the June meeting were emailed

Finance Report: No Report

RioLink Report: No Report

Volunteer examiner Report: We have 1 taking the technicians test this coming Tuesday.

ARES Dist. 3 Report: No Report

OLD BUSINESS:

A new date for the field day will be announced at a later time. Areas to look at are Weslaco Park or The Firemans Park in Mission.

Rene Lopez, Jr. KF5KYL reached out to other ham groups and Emergency Management Coordinators in our district so we can meet. There is lots of interes in what we do but so far I have not received any word from them. Rene stated he'll keep the club in loop.

A question was posed to the club by Mac Shirley AE5PU about whether hams are allowed to use there radios while driving. The law stated that one can not use their cell phone while driving.

That is a question that will be asked to our ARRL director Dr. Dave Woolweaver.

A question was asked on how many hams can log into our Echolink server at one time. We will ask our RioLink coordinator John Beardon KC5WBG.

John Reed KG5EZZ advise everyone present to acquire a Winlink account. Its fee, easy and works well when during a disaster.

Meeting adjourned at 1355 hrs.
